I had a car accident where I was hit by a car on the crosswalk. It's my first time ever with an accident like that.

Recovery Law Center walked me through the process, helped me find really nice doctor's office, and got the case settled for me. It was a pleasant process throughout.

Mr. Alejandro was exactly the kind of Lawyer I was looking for after my auto accident. I have never been in this kind of situation before but him and his team made it really easy.

They kept me up to date on everything and helped me with options for treatment. 10/10 would recommend !

I've had the pleasure of working with Sebastian, Glenn and George for some time now and I must say they are truly spectacular and an absolute pleasure to work with as well. I hope this never happens but if I were ever in a car accident in Honolulu or in need of a personal injury attorney in Hawaii I would contact Glenn Honda in a heartbeat. Their entire team is extremely knowledgeable and they truly care about their clients.

They are also very active in the community. Glenn even adopted a special needs frenchie named Ella and does sponsored adoption events as a way to give back - how sweet and kind is that!? Just absolutely love this firm and everything they stand for.

I recently picked up my settlement check.

The process was long (due to my pain returning) and the team at RLC was there by my side the entire time. When it came time to settle, I knew I was in good hands for the tough negotiations that I knew were coming. In the end, I was relieved it was over and felt that the amount was fair for all parties involved. The team is very professional and transparent. I am definitely referring them to all of my family. Mahalo!

What a fantastic experience! Honestly would give 6 stars if possible. Glenn and his staff made this process so easy, both in terms of what I had to do and in understanding everything. They were so friendly and enjoyable to be around! The best part was that I ended up settling for 10 times what the original lowball offer from the insurance was!

### **Nick R., Yelp Reviews**

Jolie is awesome!! Always on top of every email or phone call and gets back to you right away! Glen and George also were outstanding! I was dealing with a personal injury case from when I was on Vacation and I lived in Las Vegas and everyone in the office was outstanding. Highly recommended this firm if you ever need a top notch firm behind you!

I have known Glenn Honda for many years as a colleague in the legal profession and as my husband's attorney when he was sideswiped on his motorcycle. Glenn treats every client with the care and professionalism that are his trademarks and we were in good hands during my husband's recovery and then during the settlement process. While it was a difficult time for our family, Glenn made us feel at ease with the complications that arose and were finally resolved with his help. George and the staff at Recovery Law Center are the best in the business and I would highly recommend RLC for anyone in need of excellent personal injury representation. Mahalo Glenn!

I absolutely recommend the Recovery Law Center. I felt very comfortable from my very first visit. During my time of PT healing Jolie was caring to check to see how I was doing. They sent holiday cards which meant a lot to me. They were with me every step of my healing journey. Glen was able to settle within 3 months after.

### **Li P., Yelp Reviews**

Recovery Law Center made my legal experience entirely stress-free. I had two face-to-face meetings and a handful of phone calls with them. I will not hesitate for a second to call them if I find myself on the bad side of another rear-end! Mahalo to Jolie, Glenn, and the rest of the staff at RLC for making this ordeal completely painless! Aloha!

What can I say besides Recovery Law Center is awesome. Glenn and the RLC employees are so caring, they listen to you at a time when you feel frustrated and like no one else is hearing you. They go out of their way to make sure your healing and health is the No. 1 priority, like YOU are the No. 1 priority. Praises for a job well done.

What an AWESOME experience working with Glenn, George and the Recovery Law Center! I was involved in a car accident and I had no idea on how or what to do. Once again, I had the misfortune of being in an accident on the road again. First time, a careless tourist, hit me while I was driving on my motorcycle and just recently, a rear end collusion while waiting for the traffic light to change.

In both cases, I have been well informed on getting a fair settlement to my injuries, and resolving all issues, including recommending a physician that specialized in assisting in my recovery on the injuries.

I highly recommend Glenn Honda, and his staff at Recovery Law Center to anyone who looking for a law firm that knows the legal system and cares about their clients too.

Jolie and Jennifer was awesome. What ever the question would be or how many times a day they would respond back with an answer. Quickly mind you. Mr Honda is the man, very professional and really cares for his clients. Thanks guys.

My dad got into an auto accident and needed/wanted to inquire some information. I had the pleasure of talking to Caitlin, she was extremely sweet, very informative, and clear. Answered all my questions and made me feel comfortable, also referred someone who she thought would be helpful to us.

Mr. Glenn Honda, Ms. Jolie Takaoka and the rest of their team were the best possible people I could have worked with regarding my situation; they were always prompt, courteous, and professional throughout the entire ordeal.

The biggest help they provided is that they were able to settle my claim at a much higher value than I initially expected; this proves they are professionals who are well versed in the field. I would absolutely use Recovery Law Center if I had to go through the entire process again, and I only wish I knew about them sooner.

In 2010 I opened my business called Sophisticated Facial and Nail Spa I had an accident. I tired to move a safe out of my business and it fell on my whole body. The safe weighted over 3000 thousand pounds. I was in the hospital for 29 days and when I got out of the hospital i called my insurance company and they told me that this accident wouldn't be covered.

I contacted Glenn and he took my case. was very passionate and explained to me that I have a good case. In the end Glenn won my case and as a favor to me because of everything I went through that he would give me a discount and not take as much as he normally does. Glenn settled my case in less then one year.
